Instructions

THE PLANE
  -- Flip the paper over so that the printed fold lines are facing down.
 -- First fold forward, crease and open back up along both diagonal lines. Also fold back on the horizontal line and reopen.
  -- Then pull and tuck the folds together as shown in the first two drawings.
  -- Now fold the corners of the each triangle up, almost to the center line.
  -- Fold the nose of the plane back.
  -- Fold up along the center line and then fold down each wing.
   --Throw gently for distance...throw hard and up for overhead loops!
THE ADJUSTABLE FLAPS
  -- Cut on sides.
  -- Fold up to make the plane rise...fold down to make the plane drop.

Note: When printing on printers that require a large bottom margin, the adjustable flaps may not print.
THE STICK-UP TAIL
  -- Bring the two angled fold lines together.
  -- Crease along the top.

THE FASTENING CLIP
  -- Cut on the sides.
  -- Fold to one side to hold the plane together.
